

I'd like to talk about my sex life

Getting ready...

What kind of sexual relationship would I like?

Where could I look to meet my sexual needs?

How important is this to me?

Do I want someone in the chat with me?

Do I have what I need to hear and see well?

I need to remember to ask my person...

To explain things until I can fully understand.

Do I need help? Computer help? Transport help? Communication help?

Will I need anything new before I start looking for a change in my sex life?

Before I finish I will have on a piece of paper...

Where I might start looking for a new sex life.

If I have someone in mind, to approach about sex, some ideas about how to start talking to them.

Understanding that there may be some upset whilst looking for a new sex life.

Do I feel better after the talk?

All about me

My questions for my person.
